

Dhaval Dadia

Dhaval Dadia is a Fire Safety Research Engineer for the F.A.A. Technical Center's Fire Safety Branch with 9 years of experience in Halon replacement in cargo compartments, fire suppression methods in class-E and class-C cargo compartments and hazards of bulk shipments of lithium batteries. He is a member of the SAE AGE-2 Air Cargo Committee where he represents the FAA Fire Safety Branch's stance in the development of standards for Fire Resistant Containers (FRCs), Fire Containment Covers (FCCs), and the development of a standard battery fire for cargo containment options. He has a B.S. and M.S. in Mechanical and Aerospace Engineering from Rutgers, The State University of New Jersey.
